

SIGIS Member POS Solution Providers

This list includes those SIGIS Members that have identified themselves as providing POS software solutions for IAS and have requested that the SIGIS Association include such Member in this listing. This list is not an exhaustive list of industry vendors or even SIGIS Members that provide POS solutions for IAS.

This list offers merchants interested in buying or leasing POS software that supports an IAS with the ability to connect with a POS solutions vendor. The SIGIS Association merely acts to connect merchants with POS vendors and is not engaged in the business of buying or selling software. The SIGIS Association does not endorse or recommend any of these firms or individuals and recommends careful evaluation including reference checks and certification status with the acquirer that processes your transactions prior to entering into any agreement for IAS POS solutions with any of the listed firms or individuals.
